

PRIVATE PERSON

(T: K. Rödder)

Are you there ? *(Are you there ?)*
Have you got to where you headed for ?
Are you happy ? *(Are you happy ?)*
Have you found what you went searching for ?

I failed, I see, I couldn't be the one you think you need
Or maybe you're afraid to take the chance that I'm indeed
Be there, beware

You are a most **private person**
Facing it all alone if push comes to shove
You are a most **private person**
And I must be so hard to love

I agree *(I agree)*
That it's in the way of love affairs
And I can see *(I can see)*
That they're best until one lover cares

I failed, I see, I couldn't be the one you'd like to hold
But maybe given time, you'd 've seen a universe unfold
Be there, beware

You are a most **private person**
Facing it all alone if push comes to shove
You are a most **private person**
And I must be so hard to love

Sleep about it, drink about it, maybe even think about it
What's the point in being on your own? *(No point in being all alone)*
Even if it's not for good, open up and let me prove I could
Take you home

You are a most **private person**
Facing it all alone if push comes to shove
You are a most **private person**
And I must be so hard to love
